

```
1  #include <iostream>
2  #include <stdio.h>
3
4  using namespace std;
5
6  int main() {
7      freopen("feof.dat", "r", stdin);
8      while (!cin.eof()) {
9          int i;
10         cin >> i;
11         cout << i << endl;
12     }
13     return 0;
14 }
15
```
